DETAILED ACTION

Allowable Subject Matter

1. Claims 56-67 and 69-75 are allowed.

The following is an examiner's statement of reasons for allowance:

In reference to claims 56 and 70, the prior art of record does not explicitly disclose a method or apparatus for wrapping a texture onto a surface of a 3D virtual object wherein a first patch over a user-defined region is established, the first patch being a NURBS patch, mapping a plurality of locations in the user-defined region to a corresponding location in a texture according to a mapping scheme wherein points of a planar mesh are adjusted to account for a spacing of corresponding points within the first patch and wherein the texture is superimposed onto a second patch based upon the adjusted planar mesh, wherein the points of the planar mesh are adjusted to improve a quality metric associated with the spacing, and the points are connected by mechanical modeling elements so that they are adjusted to reduce an energy associated with the elements in combination with the further limitations of claims 56 and 70 respectively.

In reference to claims 57-67, 69 and 71-75, these claims depend upon allowable claims 56 and 70 and are therefore also deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see pages 7-12 of Applicant's Remarks, filed 09/15/10 and the Remarks of the interview conducted 9/14/10, with respect to the 35 USC 103 rejection of the claims in view of Dumesny and Peurach have been fully considered and are persuasive. The 35 USC 103 rejection of these claims has been withdrawn.
3. Note, an updated prior art search has yielded no additional, as per prior art rejection purposes, applicable results. Therefore, the claims are deemed in condition for allowance.

References Cited

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
 - a. Maillot et al. (U.S. Patent 7,236,178)
 - i. Maillot et al. discloses a system that allows a user to paint directly onto a parameterized object such as a 3D object represent by a NURBS surface.
